Award Winning Zt-2 Wideband

AFR/Lambda
EGT, AIT,
RPM, TPS
Boost/Vacuum
Oil Temp.
Water Temp.
Fuel Pressure
Oil Pressure

- Precise Air/Fuel (Lambda) measurement
- Carbureted and fuel-injected engine datalogging
- Wideband oxygen sensor included
- Measures and logs Air Fuel Ratio/Lambda, Boost/Vacuum, Throttle Position, Water/Oil/Transmission/Air Intake/ Exhaust Gas Temperature, Fuel/Oil Pressure, and RPM using ignition coil, crank or cam sensor, tachometer signals with no adapters needed!
- Fast-response, high-bandwidth digital output
- Adjustable simulated narrowband oxygen sensor output
- Engine safe guards with optional audio/visual trigger
- Compatible displays include Zeitronix ZR-1, ZR-2, LCD, Hacker/Tweaker, DashDAQ II XL, and included PC software
- High quality, high performance, low cost
- Made in the USA

Dual Channel Wideband AFR

Compact

Expandable

Accurately track dual channel wideband Air/Fuel Ratios with Zeitronix Zt-2 and Zt-3 Widebands. Pair together for dual channel operation or expand with up to 8 wideband AFR channels. Compact and versatile with support for multiple sensors and signals.

Wide Range of Supported Sensors

Pressure
Boost/Vacuum
Fuel Pressure
Oil Pressure

Oil / Water / Transmission
Temperature

Exhaust Gas Temperature

Dual AFR Capable ZR-2 Multi Gauge, LCD, and New Hacker/Tweaker Display

Stealth display for clean, in-dash installations. One display per Wideband for single or dual AFR readouts.

Alarm conditions support for all sensors
